§59-2095.1. Legislative findings. 1438
The activities of mortgage brokers, mortgage lenders, and mortgage loan originators and the origination, offering, servicing or modification of financing for residential real property have a direct, valuable, and immediate impact upon Oklahoma's consumers, the Oklahoma economy, the neighborhoods and communities of Oklahoma, and the housing and real estate industry. Therefore, the Legislature finds that accessibility to mortgage credit is vital to the state's citizens. The Legislature also finds that it is essential for the protection of the citizens of Oklahoma and the stability of the Oklahoma economy that reasonable standards for licensing and regulation of the business practices of mortgage brokers, mortgage lenders, and mortgage loan originators be imposed. The Legislature further finds that the obligations of mortgage brokers, mortgage lenders, and mortgage loan originators to consumers in connection with originating or making, modifying or servicing residential mortgage loans are such as to warrant the regulation of the mortgage lending and servicing process. The purpose of the Oklahoma Secure and Fair Enforcement for Mortgage Licensing Act is to protect consumers seeking mortgage loans and to ensure that the mortgage lending and servicing industry is operating without unfair, deceptive, and fraudulent practices on the part of mortgage brokers, mortgage lenders, and mortgage loan originators. Therefore, the Legislature establishes within the Oklahoma Secure and Fair Enforcement for Mortgage Licensing Act: 1439

No person shall aid or abet any person, not licensed under the provisions of this act, in the practice of architecture.

B. Every person applying to the Board for an initial license shall submit an application accompanied by the fee established in accordance with the rules of the Board, with satisfactory evidence that such person holds an accredited professional degree in architecture or has completed such other education as the Board deems equivalent to an accredited professional degree and with satisfactory evidence that such person has completed such practical training in architectural work as the Board requires. The Legislature, therefore, declares that for the public good, and the general welfare of the citizens of this state, the enactment of the Oklahoma Dental Mediation Act is required.

b. a commission to an agent or employee of the entity conducting the audit is not based, directly or indirectly, on amounts recouped.

H. To the extent that an audit results in the identification of any clerical or record-keeping errors such as typographical errors, scrivener's errors or computer errors in a required document or record, the pharmacy shall not be subject to recoupment of funds by the pharmacy benefits manager unless the pharmacy benefits manager can provide proof of intent to commit fraud. A person shall not be subject to criminal penalties for errors provided for in this paragraph without proof of intent to commit fraud;

Wholesaler invoice reviews shall be limited to verification of purchase inventory specific to the pharmacy claims paid by the health benefits plan or pharmacy benefits manager conducting the audit without limitation to date or source of purchase.

The annual limit to the number of prescription claims audited shall be inclusive of all audits, including any prescription-related documentation requests from the health insurer, pharmacy benefits manager or any third-party company conducting audits on behalf of any health insurer or pharmacy benefits manager during a calendar year.

E. If paper copies of records are requested by the entity conducting the audit, the entity shall pay twenty-five cents ($0.25) per page to cover the costs incurred by the pharmacy. 2. This subsection does not prevent the entity conducting the audit from charging or assessing the responsible party, directly or

indirectly, based on amounts recouped if both of the following conditions are met:

a. the plan sponsor and the entity conducting the audit have a contract that explicitly states the percentage charge or assessment to the plan sponsor, and

b. a commission to an agent or employee of the entity conducting the audit is not based, directly or indirectly, on amounts recouped.

I. Unless superseded by state or federal law, auditors shall only have access to previous audit reports on a particular pharmacy conducted by the auditing entity for the same pharmacy benefits manager, health plan or insurer. J. Sections A through I of this section shall not apply to any audit initiated based on or that involves fraud, willful misrepresentation, or abuse.

C. Any final audit report, following the final audit appeal period, with a finding of fraud or willful misrepresentation shall be referred to the district attorney having proper jurisdiction or the Attorney General for prosecution upon completion of the appeals process. An assistant funeral director shall be an employee of the funeral director in charge under whom the employee is registered, and shall be a person to whom the funeral director in charge delegates the responsibility of conducting funeral services, making funeral arrangements, and making interments.

B. The Oklahoma Funeral Board may license assistant funeral directors to each Oklahoma-licensed funeral director in charge. The funeral director in charge shall have only one assistant funeral director. Licensure as an assistant funeral director shall be separate and distinct from registration as an apprentice funeral director or embalmer. The Board may issue an assistant funeral director license upon successful completion of the Oklahoma State Law Examination for Funeral Directors, the manner and form of which shall be determined by the Board, and upon payment of the application fee which shall include the license fee for the current year or portion thereof. Such application and registration and renewal fee shall be in the amount fixed by the Board in accordance with the provisions of Section 396.4 of Title 59 of the Oklahoma Statutes. Before issuing a license to an applicant for an assistant funeral director's license, the Board shall require satisfactory proof that the applicant is capable and trustworthy to act as such and that the applicant is a person of good moral character, has a good standing in the community, and is qualified to engage in the business. In determining the moral character of any such applicant, the Board shall take into consideration any felony conviction of such person; provided, however, any such conviction shall not automatically operate as a bar to licensure. Each person applying for an assistant funeral director's license shall make application and be recommended in writing on forms provided by the Board. The application shall show that the applicant is at least eighteen (18) years of age and shall have at least sixty (60) semester hours of study earned, measured in quarter or clock hours, from a regionally accredited college or university before such license can be issued

to the applicant. Upon issuing a license to an assistant funeral director, the Board shall cause the licensee to be registered under the supervision of the Oklahoma-licensed funeral director by whom such licensee is employed and under whom such licensee is registered. The funeral director under whom the assistant funeral director has been registered shall immediately notify the Board when the licensee has left the employment of the director. Upon reemployment of the licensee by any other funeral director in charge, such licensee shall be reinstated by the Board. The work of an assistant funeral director shall at all times be under the supervision and control of the Oklahoma-licensed funeral director under whom the licensee is registered. Licenses of assistant funeral directors may be suspended or revoked, or the Board may refuse to issue or renew a license, for any of the reasons and in the manner stated in this section for funeral directors' licenses.

C. The expiration date of each license shall be December 31. Subject to the provisions of this section, each license shall be renewable on an annual basis upon the filing of a renewal application prior to the expiration date of the license and upon payment of the renewal fee.

A. The practice of or offer to practice engineering or surveying by firms authorized under this act, or by more than one person acting individually through a firm, is permitted provided:

1. The managing agent(s) in responsible charge of such practice and all personnel who act in behalf of the firm in professional engineering and surveying matters in this state are licensed under this act; and

2. The firm has been issued a certificate of authority by the Board.

B. No such firm shall be relieved of responsibility for the conduct or acts of its agents, employees, officers or partners by reason of its compliance with the provisions of this section. No individual practicing engineering or surveying, pursuant to the provisions of this act, shall be relieved of responsibility for engineering or surveying services performed by reason of employment or other relationship with a firm holding a certificate of authority.

The firm applying shall supply such certificate or letter from the Board with its application for incorporation or registration.

D. The Secretary of State shall decline to register any trade name or service mark which includes such words, as set forth in subsection C of this section, or modifications or derivatives thereof in its firm name or logotype except those firms holding certificates of authority issued under the provisions of this section.

If the ownership is less than fifty percent (50%) ownership, an explanation must be included as to the extent of authority this partner holds regarding engineering or surveying decisions, respectively, as it pertains to paragraphs 1 through 3 of this subsection. A licensee who is a full-time employee of a firm and holds a position of recognized authority within the firm but does not hold one of the above-stated titles may request Board approval to be named the managing agent by submitting a letter to the Board on firm letterhead signed by a person within the firm holding one of the above-stated titles, describing the special circumstances surrounding the requested exception and the extent of authority this employee holds regarding engineering or surveying decisions, respectively, as it pertains to paragraphs 1 through 3 of this subsection. The professional engineer or professional surveyor designated for this purpose shall be required to spend a majority of normal business hours at one or more branch offices located in Oklahoma and be duly licensed as a professional engineer or professional surveyor, respectively, in this state. §59-493.7. Interstate Medical Licensure Compact.

INTERSTATE MEDICAL LICENSURE COMPACT

Section 1. PURPOSE

In order to strengthen access to health care, and in recognition of the advances in the delivery of health care, the member states of the Interstate Medical Licensure Compact have allied in common purpose to develop a comprehensive process that complements the existing licensing and regulatory authority of state medical boards, provides a streamlined process that allows physicians to become licensed in multiple states, thereby enhancing the portability of a medical license and ensuring the safety of patients. The Compact creates another pathway for licensure and does not otherwise change a state's existing Medical Practice Act. The Compact also adopts the prevailing standard for licensure and affirms that the practice of medicine occurs where the patient is located at the time of the physician-patient encounter, and therefore requires the physician to be under the jurisdiction of the state medical board where the patient is located. State medical boards that participate in the Compact retain the jurisdiction to impose an adverse action against a license to practice medicine in that state issued to a physician through the procedures in the Compact.

(b) If a license granted to a physician by the member board in the state of principal license is revoked, surrendered or relinquished in lieu of discipline, or suspended, then all licenses issued to the physician by member boards shall automatically be placed, without further action necessary by any member board, on the same status. If the member board in the state of principal license subsequently reinstates the physician's license, a license issued to the physician by any other member board shall remain encumbered until that respective member board takes action to reinstate the license in a manner consistent with the Medical Practice Act of that state.

(c) If disciplinary action is taken against a physician by a member board not in the state of principal license, any other member board may deem the action conclusive as to matter of law and fact decided, and:

(1) impose the same or lesser sanction(s) against the physician so long as such sanction(s) are consistent with the Medical Practice Act of that state, or

(2) pursue separate disciplinary action against the physician under its respective Medical Practice Act, regardless of the action taken in other member states.

(d) If a license granted to a physician by a member board is revoked, surrendered or relinquished in lieu of discipline, or suspended, then any license(s) issued to the physician by any other member board(s) shall be suspended, automatically and immediately without further action necessary by the other member board(s), for ninety (90) days upon entry of the order by the disciplining board, to permit the member board(s) to investigate the basis for the action under the Medical Practice Act of that state. A member board may terminate the automatic suspension of the license it issued prior to the completion of the ninety-day suspension period in a manner consistent with the Medical Practice Act of that state.

Section 11. INTERSTATE MEDICAL LICENSURE COMPACT COMMISSION

(a) The member states hereby create the "Interstate Medical Licensure Compact Commission".

(b) The purpose of the Interstate Commission is the administration of the Interstate Medical Licensure Compact, which is a discretionary state function.

(c) The Interstate Commission shall be a body corporate and joint agency of the member states and shall have all the responsibilities, powers and duties set forth in the Compact, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of the Compact.

(d) The Interstate Commission shall consist of two voting representatives appointed by each member state who shall serve as Commissioners. In states where allopathic and osteopathic physicians are regulated by separate member boards, or if the licensing and disciplinary authority is split between multiple member boards within a member state, the member state shall appoint one representative from each member board. A Commissioner shall be:

(1) an allopathic or osteopathic physician appointed to a member board,

(2) an executive director, executive secretary or similar executive of a member board, or

(3) a member of the public appointed to a member board.

(e) The Interstate Commission shall meet at least once each calendar year. A portion of this meeting shall be a business meeting to address such matters as may properly come before the Commission, including the election of officers. The chairperson may call additional meetings and shall call for a meeting upon the request of a majority of the member states.

(f) The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

(g) Each Commissioner participating at a meeting of the Interstate Commission is entitled to one vote. A majority of Commissioners shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission. A Commissioner shall not delegate a vote to another Commissioner. In the absence of its Commissioner, a member state may delegate voting authority for a specified meeting to another person from that state who shall meet the requirements of subsection (d) of this section.

(h) The Interstate Commission shall provide public notice of all meetings and all meetings shall be open to the public. The Interstate Commission may close a meeting, in full or in portion, where it determines by a two-thirds vote of the Commissioners present that an open meeting would be likely to:

(1) relate solely to the internal personnel practices and procedures of the Interstate Commission,
(2) discuss matters specifically exempted from disclosure by federal statute,
(3) discuss trade secrets or commercial or financial information that is privileged or confidential,
(4) involve accusing a person of a crime or formally censuring a person,
(5) discuss information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy,
(6) discuss investigative records compiled for law enforcement purposes, or
(7) specifically relate to the participation in a civil action or other legal proceeding.

(i) The Interstate Commission shall keep minutes which shall fully describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, including record of any roll-call votes.

(j) The Interstate Commission shall make its information and official records, to the extent not otherwise designated in the Compact or by its rules, available to the public for inspection.

(k) The Interstate Commission shall establish an executive committee, which shall include an executive director, officers, members and others as determined by the bylaws. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. When acting on behalf of the Interstate Commission, the executive committee shall oversee the administration of the Compact, including enforcement and compliance with the provisions of the Compact, its bylaws and rules, and other such duties, as necessary.

(l) The Interstate Commission may establish other committees for governance and administration of the Compact.

Section 12. POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The Interstate Commission shall have the duty and power to:

(a) Oversee and maintain the administration of the Compact;

(b) Promulgate rules which shall be binding to the extent and in the manner provided for in the Compact;

(c) Issue, upon the request of a member state or member board, advisory opinions concerning the meaning or interpretation of the Compact and its bylaws, rules and actions;

(d) Enforce compliance with Compact provisions, the rules promulgated by the Interstate Commission and the bylaws using all necessary and proper means, including but not limited to the use of judicial process;

(e) Establish and appoint committees including, but not limited to, an executive committee as required by Section 11 of the Compact, which shall have the power to act on behalf of the Interstate Commission in carrying out its powers and duties;

(f) Pay, or provide for the payment of the expenses related to the establishment, organization and ongoing activities of the Interstate Commission;

(g) Establish and maintain one or more offices;

(h) Borrow, accept, hire or contract for services of personnel;

(i) Purchase and maintain insurance and bonds;

(j) Employ an executive director who shall have such powers to employ, select or appoint employees, agents or consultants, and to determine their qualifications, define their duties and fix their compensation;

(k) Establish personnel policies and programs relating to conflicts of interest, rates of compensation and qualifications of personnel;

(l) Accept donations and grants of money, equipment, supplies, materials and services, and to receive, utilize and dispose of them in a manner consistent with the conflict-of-interest policies established by the Interstate Commission;

(m) Lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve or use, any property, real, personal or mixed;

(n) Sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal or mixed;

(o) Establish a budget and make expenditures;

(p) Adopt a seal and bylaws governing the management and operation of the Interstate Commission;

(q) Report annually to the legislatures and governors of the member states concerning the activities of the Interstate Commission during the preceding year. Such reports shall also include reports of financial audits and any recommendations that may have been adopted by the Interstate Commission;

(r) Coordinate education, training and public awareness regarding the Compact, its implementation and its operation;

(s) Maintain records in accordance with the bylaws;

(t) Seek and obtain trademarks, copyrights and patents; and

(u) Perform such functions as may be necessary or appropriate to achieve the purposes of the Compact.

Section 13. FINANCE POWERS

(a) The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff. The total assessment must be sufficient to cover the annual budget approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount shall be allocated

upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

(b) The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same.

(c) The Interstate Commission shall not pledge the credit of any of the member states, except by, and with the authority of, the member state.

(d) The Interstate Commission shall be subject to a yearly financial audit conducted by a certified or licensed public accountant, and the report of the audit shall be included in the annual report of the Interstate Commission.

Section 14. ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

(a) The Interstate Commission shall, by a majority of Commissioners present and voting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the Compact within twelve (12) months of the first Interstate Commission meeting.

(b) The Interstate Commission shall elect or appoint annually from among its Commissioners a chairperson, a vice-chairperson and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice-chairperson shall preside at all meetings of the Interstate Commission.

(c) Officers selected in subsection (b) of this section shall serve without remuneration from the Interstate Commission.

(d) The officers and employees of the Interstate Commission shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of, or relating to, an actual or alleged act, error or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties or responsibilities; provided, that such person shall not be protected from suit or liability for damage, loss, injury or liability caused by the intentional or willful and wanton misconduct of such person.

(1) The liability of the executive director and employees of the Interstate Commission or representatives of the Interstate Commission, acting within the scope of such person's employment or duties for acts, errors or omissions occurring within such person's state may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action.

Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury or liability caused by the intentional or willful and wanton misconduct of such person.

(2) The Interstate Commission shall defend the executive director, its employees, and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error or omission that occurred within the scope of Interstate Commission employment, duties or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties or responsibilities, provided that the actual or alleged act, error or omission did not result from intentional or willful and wanton misconduct on the part of such person.

(3) To the extent not covered by the state involved, member state or the Interstate Commission, the representatives or employees of the Interstate Commission shall be held harmless in the amount of a settlement or judgment, including attorney fees and costs, obtained against such persons arising out of an actual or alleged act, error or omission that occurred within the scope of Interstate Commission employment, duties or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties or responsibilities, provided that the actual or alleged act, error or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

Section 15. RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

(a) The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of the Compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of the Compact, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

(b) Rules deemed appropriate for the operations of the Interstate Commission shall be made pursuant to a rulemaking process that substantially conforms to the Model State Administrative Procedure Act of 2010, and subsequent amendments thereto.

(c) Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule in the United States District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the authority granted to the Interstate Commission.

Section 16. OVERSIGHT OF INTERSTATE COMPACT

(a) The executive, legislative and judicial branches of state government in each member state shall enforce the Compact and shall take all actions necessary and appropriate to effectuate the Compact's purposes and intent. The provisions of the Compact and the rules promulgated hereunder shall have standing as statutory law but shall not override existing state authority to regulate the practice of medicine.

(b) All courts shall take judicial notice of the Compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of the Compact which may affect the powers, responsibilities or actions of the Interstate Commission.

(c) The Interstate Commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, the Compact or promulgated rules.

Section 17. ENFORCEMENT OF INTERSTATE COMPACT

(a) The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the Compact.

(b) The Interstate Commission may, by majority vote of the Commissioners, initiate legal action in the United States District Court for the District of Columbia, or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices, to enforce compliance with the provisions of the Compact, and its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(c) The remedies herein shall not be the exclusive remedies of the Interstate Commission. The Interstate Commission may avail

itself of any other remedies available under state law or the regulation of a profession.

Section 18. DEFAULT PROCEDURES

(a) The grounds for default include, but are not limited to, failure of a member state to perform such obligations or responsibilities imposed upon it by the Compact, or the rules and bylaws of the Interstate Commission promulgated under the Compact.

(b) If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under the Compact, or the bylaws or promulgated rules, the Interstate Commission shall:

(1) provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default, and

(2) provide remedial training and specific technical assistance regarding the default.

(c) If the defaulting state fails to cure the default, the defaulting state shall be terminated from the Compact upon an affirmative vote of a majority of the Commissioners and all rights, privileges and benefits conferred by the Compact shall terminate on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

(d) Termination of membership in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to terminate shall be given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state's legislature and each of the member states.

(e) The Interstate Commission shall establish rules and procedures to address licenses and physicians that are materially impacted by the termination of a member state or the withdrawal of a member state.

(f) The member state which has been terminated is responsible for all dues, obligations and liabilities incurred through the effective date of termination, including obligations, the performance of which extends beyond the effective date of termination.

(g) The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been terminated from the Compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

(h) The defaulting state may appeal the action of the Interstate Commission by petitioning the United States District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

Section 19. DISPUTE RESOLUTION

(a) The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the Compact and which may arise among member states or member boards.

(b) The Interstate Commission shall promulgate rules providing for both mediation and binding dispute resolution, as appropriate.

Section 20. MEMBER STATES, EFFECTIVE DATE AND AMENDMENT

(a) Any state is eligible to become a member state of the Compact.

(b) The Compact shall become effective and binding upon legislative enactment of the Compact into law by no less than seven (7) states. Thereafter, it shall become effective and binding on a state upon enactment of the Compact into law by that state.

(c) The governors of nonmember states, or their designees, shall be invited to participate in the activities of the Interstate Commission on a nonvoting basis prior to adoption of the Compact by all states.

(d) The Interstate Commission may propose amendments to the Compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

Section 21. WITHDRAWAL

(a) Once effective, the Compact shall continue in force and remain binding upon each and every member state; provided, that a member state may withdraw from the Compact by specifically repealing the statute which enacted the Compact into law.

(b) Withdrawal from the Compact shall be by the enactment of a statute repealing the same, but shall not take effect until one (1) year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member state.

(c) The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing the Compact in the withdrawing state.

(d) The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty (60) days of its receipt of notice provided under subsection (c) of this section.

(e) The withdrawing state is responsible for all dues, obligations and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extends beyond the effective date of withdrawal.

(f) Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the Compact or upon such later date as determined by the Interstate Commission.

(g) The Interstate Commission is authorized to develop rules to address the impact of the withdrawal of a member state on licenses granted in other member states to physicians who designated the withdrawing member state as the state of principal license.

Section 22. DISSOLUTION

(a) The Compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the Compact to one (1) member state.

(b) Upon the dissolution of the Compact, the Compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

Section 23. SEVERABILITY AND CONSTRUCTION

(a) The provisions of the Compact shall be severable, and if any phrase, clause, sentence or provision is deemed unenforceable, the remaining provisions of the Compact shall be enforceable.

(b) The provisions of the Compact shall be liberally construed to effectuate its purposes.

(c) Nothing in the Compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

Section 24. BINDING EFFECT OF COMPACT AND OTHER LAWS

(a) Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with the Compact.

(b) All laws in a member state in conflict with the Compact are superseded to the extent of the conflict.

(c) All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Commission, are binding upon the member states.

(d) All agreements between the Interstate Commission and the member states are binding in accordance with their terms.

(e) In the event any provision of the Compact exceeds the constitutional limits imposed on the legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

A. The State Board of Medical Licensure and Supervision shall offer a medical licensure examination as necessary to test the qualifications of applicants.

1. Except as otherwise provided, no person shall receive a license to practice medicine and surgery in this state unless he or she passes or has passed all required examinations satisfactory to the Board.

2. The Board shall approve the preparation and administration of any examination, in English, that it deems necessary to determine an applicant's ability to practice medicine and surgery with reasonable skill and safety.

3. Examinations shall be reviewed and scored in a way to ensure the anonymity of applicants.

4. Examinations shall be conducted at least semiannually, provided that there is an applicant.

5. The Board shall specify the minimum score required to pass any examination. The required passing score shall be specified prior to the administration of any examination.

6. Applicants shall be required to pass all examinations with a score as set by rule, within a specific period of time after initial

application. Specific requirements for the satisfactory completion of further medical education shall be established by the Board for those applicants seeking to be examined after the specified period of time after initial application.

7. The Board may limit the number of times an applicant may take an examination before the satisfactory completion of further medical education is required of an applicant, provided that this limitation may be waived by the Board for good cause.

8. Fees for any examination shall be paid by an applicant prior to the examination and no later than a date set by the Board.

B. To apply for an examination, an applicant shall provide the Board and attest to the following information and documentation no later than a date set by the Board:

Any individual found by the Board to have engaged in conduct that subverts or attempts to subvert the medical licensing examination process may have his or her scores on the licensing examination withheld or declared invalid, be disqualified from the practice of medicine and surgery, or be subject to the imposition of other appropriate sanctions. The Board shall notify the Federation of State Medical Boards of the United States of any such action.

Conduct that subverts or attempts to subvert the medical licensing examination process shall include, but not be limited to:

D. The Board shall provide written notice to all applicants for medical licensure of such prohibitions and of the sanctions imposed for such conduct. A copy of such notice, attesting that the applicant has read and understands the notice, shall be signed by the applicant and filed with the application.

E. The Board shall have exclusive power and authority to determine the qualifications and fitness of all applicants for admission to practice allopathic medicine in this state. The licensee shall apply for license reregistration on a form or forms provided by the Board, which shall be designed to require the licensee to update or add to the information in the Board's file relating to the licensee and his or her professional activity. 5. The licensee's voluntary resignation from the medical staff of any health care institution or voluntary limitation of the licensee's staff privileges at such an institution if that action occurred while the licensee was under formal or informal investigation by the institution or a committee thereof for any reason related to alleged medical incompetence, unprofessional conduct, or mental or physical impairment;

6. The licensee's voluntary resignation or withdrawal from a national, state, or county medical society, association, or organization if that action occurred while the licensee was under formal or informal investigation or review by that body for any reason related to possible medical incompetence, unprofessional or unethical conduct, or mental or physical impairment;

7. Whether the licensee has abused or has been addicted to or treated for addiction to alcohol or any chemical substance during the previous registration period, unless such person is in a rehabilitation program approved by the Board;

8. Whether the licensee has had any physical injury or disease or mental illness during the previous registration period that affected or interrupted his or her practice of medicine and surgery; and

9. The licensee's completion of continuing medical education or other forms of professional maintenance or evaluation, including specialty board certification or recertification, during the previous registration period.

B. The Board may require continuing medical education for license reregistration and require documentation of that education. D. The licensee shall sign and attest to the veracity of the application form for license reregistration. Failure to report fully and correctly shall be grounds for disciplinary action by the Board.

The defendant shall file a written answer under oath with the secretary of the Board within twenty (20) days after the service of the citation, exclusive of the day of service. The secretary of the Board may extend the time of answer upon satisfactory showing that the defendant is for reasonable cause unable to answer within the twenty (20) days exclusive of the day of service, but in no case shall the time be extended beyond the date of the next regular meeting of the Board, unless a continuance is granted by the Board. The Board may take such actions singly or in combination as the nature of the violation requires.

B. LETTER OF CONCERN: The Board may authorize the secretary to issue a confidential and privileged letter of concern to a licensee when evidence does not warrant formal proceedings, but the secretary has noted indications of possible errant conduct that could lead to serious consequences and formal action. The letter of concern may contain, at the secretary’s discretion, clarifying information from the licensee.

C. EXAMINATION/EVALUATION: The Board may, upon reasonable cause, require professional competency, physical, mental, or chemical dependency examinations of any licensee, including withdrawal and laboratory examination of body fluids.

D. DISCIPLINARY ACTION AGAINST LICENSEES:

1. The Board shall promulgate rules describing acts of unprofessional or unethical conduct by physicians pursuant to the Oklahoma Allopathic Medical and Surgical Licensure and Supervision Act; and

The Board shall not revoke the license of a person otherwise qualified to practice allopathic medicine within the meaning of the Oklahoma Allopathic Medical and Surgical Licensure and Supervision Act solely

because the person's practice or a therapy is experimental or nontraditional.

Reports of all disciplinary action provided for in this section will be available to the public upon request. Investigative files shall remain confidential and privileged. The Board, its employees, or other agents of the Board shall keep confidential and privileged all information that initiated, was obtained during, or is related to an investigation into possible violations of any and all acts governing any and all professional licensees under the legislative jurisdiction of the State Board of Medical Licensure and Supervision. However, such information may be offered by the state in administrative proceedings before the Board and if admitted the information then becomes a public record. d. specifically admitting to and describing the misconduct.

2. The sworn written statement must be submitted with the licensee's wallet card and wall certificate. The Secretary or Executive Director of the Board may accept the sworn statement, wallet card and wall certificate from a licensee pending formal acceptance by the Board. The issuance of a complaint and citation

by the Board shall not be necessary for the Board to accept a surrender under this subsection. A surrender under this subsection shall be considered disciplinary action by the Board in all cases, even in cases where surrender occurs prior to the issuance of a formal complaint and citation, and shall be reported as disciplinary action by the Board to the public and any other entity to whom the Board regularly reports disciplinary actions.

3. As a condition to acceptance of the surrender, the Board may require the licensee to pay the costs expended by the Board for any legal fees and costs and any investigation, probation and monitoring fees including, but not limited to, staff time, salary and travel expense, witness fees and attorney fees.

4. The licensee whose surrender in lieu of prosecution is accepted by the Board shall be ineligible to reapply for reinstatement of his or her license for at least one (1) year from the date of the accepted surrender.

F. ALL LICENSED PROFESSIONALS: All disciplinary actions defined in this section are applicable to any and all professional licensees under the legislative jurisdiction of the State Board of Medical Licensure and Supervision.

§59-545.1. PA Licensure Compact — Purpose.

In order to strengthen access to medical services and in recognition of the advances in the delivery of medical services, the participating states of the PA Licensure Compact have allied in common purpose to develop a comprehensive process that complements the existing authority of state licensing boards to license and discipline physician assistants, or PAs, and seeks to enhance the portability of a license to practice as a PA while safeguarding the safety of patients. The Compact allows medical services to be provided by PAs via the mutual recognition of the licensee's qualifying license by other Compact participating states. The Compact also adopts the prevailing standard for PA licensure and affirms that the practice and delivery of medical services by the PA occurs where the patient is located at the time of the patient encounter and therefore requires the PA to be under the jurisdiction of the state licensing board where the patient is located. State licensing boards that participate in the Compact retain the jurisdiction to impose adverse action against a Compact privilege in that state issued to a PA through the procedures of the Compact. The PA Licensure Compact will alleviate burdens for military families by allowing active duty military personnel and their spouses to obtain a Compact privilege based on having an unrestricted license in good standing from a participating state.

3. The Commission shall indemnify and hold harmless any member, officer, executive director, employee, and representative of the Commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of that person;

4. Venue is proper and judicial proceedings by or against the Commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses in any proceedings as authorized by Commission rules;

5. Nothing herein shall be construed as a limitation on the liability of any licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable state laws;

6. Nothing herein shall be construed to designate the venue or jurisdiction to bring actions for alleged acts of malpractice, professional misconduct, negligence, or other such civil action pertaining to the practice of a PA. All such matters shall be determined exclusively by state law other than the Compact;

7. Nothing in the Compact shall be interpreted to waive or otherwise abrogate a participating state's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman Act, Clayton Act, or any other state or federal antitrust or anticompetitive law or regulation; and

8. Nothing in the Compact shall be construed to be a waiver of sovereign immunity by the participating states or by the Commission. Added by Laws 2024, c. 22, § 7, eff. Nov. 1, 2024.

§59-545.8. Commission duties.

A. The Commission shall provide for the development, maintenance, operation, and utilization of a coordinated data and reporting system containing licensure, adverse action, and the reporting of the existence of significant investigative information on all licensed PAs and applicants denied a license in participating states.

B. Notwithstanding any other state law to the contrary, a participating state shall submit a uniform data set to the data system on all PAs to whom the Compact is applicable (utilizing a unique identifier) as required by the rules of the Commission, including:

1. Identifying information;
2. Licensure data;
3. Adverse actions against a license or Compact privilege; and
4. Any denial of application for licensure and the reason for such denial, excluding the reporting of any criminal history record information where prohibited by law;
5. The existence of significant investigative information; and
6. Other information that may facilitate the administration of the Compact, as determined by the rules of the Commission.

C. Significant investigative information pertaining to a licensee in any participating state shall only be available to other participating states.

D. The Commission shall promptly notify all participating states of any adverse action taken against a licensee or an individual applying for a license that has been reported to it. This adverse action information shall be available to any other participating state.

E. Participating states contributing information to the data system may, in accordance with state or federal law, designate information that may not be shared with the public without the express permission of the contributing state. Notwithstanding any such designation, such information shall be reported to the Commission through the data system.

F. Any information submitted to the data system that is subsequently expunged pursuant to federal law or the laws of the participating state contributing the information shall be removed from the data system upon reporting of such by the participating state to the Commission.

G. The records and information provided to a participating state pursuant to the Compact or through the data system, when certified by the Commission or an agent thereof, shall constitute the authenticated business records of the Commission and shall be entitled to any associated hearsay exception in any relevant judicial, quasi-judicial, or administrative proceedings in a participating state.

§59-545.9. Commission rulemaking.

A. The Commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Commission rules shall become binding as of the date specified by the Commission for each rule.

B. The Commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer the Compact and achieve its purposes. A Commission rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the Commission exercised its

rulemaking authority in a manner that is beyond the scope of the purposes of the Compact, or the powers granted hereunder, or based upon another applicable standard of review.

C. The rules of the Commission shall have the force of law in each participating state; provided, however, that where the rules of the Commission conflict with the laws of the participating state that establish the medical services a PA may perform in the participating state, as held by a court of competent jurisdiction, the rules of the Commission shall be ineffective in that state to the extent of the conflict.

D. If a majority of the legislatures of the participating states rejects a Commission rule, by enactment of a statute or resolution in the same manner used to adopt the Compact within four (4) years of the date of adoption of the rule, then such rule shall have no further force and effect in any participating state or to any state applying to participate in the Compact.

E. Commission rules shall be adopted at a regular or special meeting of the Commission.

F. Prior to promulgation and adoption of a final rule or rules by the Commission, and at least thirty (30) days in advance of the meeting at which the rule will be considered and voted upon, the Commission shall file a notice of proposed rulemaking:

1. On the website of the Commission or other publicly accessible platform;

2. To persons who have requested notice of the Commission's notices of proposed rulemaking; and

3. In such other way(s) as the Commission may by rule specify.

G. The notice of proposed rulemaking shall include:

1. The time, date, and location of the public hearing on the proposed rule and the proposed time, date, and location of the meeting in which the proposed rule will be considered and voted upon;

2. The text of the proposed rule and the reason for the proposed rule;

3. A request for comments on the proposed rule from any interested person and the date by which written comments must be received; and

4. The manner in which interested persons may submit notice to the Commission of their intention to attend the public hearing or provide any written comments.

H. Prior to adoption of a proposed rule, the Commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

I. If the hearing is to be held via electronic means, the Commission shall publish the mechanism for access to the electronic hearing.

1. All persons wishing to be heard at the hearing shall, as directed in the notice of proposed rulemaking, not less than five (5) business days before the scheduled date of the hearing, notify the Commission of their desire to appear and testify at the hearing.

2. Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.

3. All hearings shall be recorded. A copy of the recording and the written comments, data, facts, opinions, and arguments received in response to the proposed rulemaking shall be made available to a person upon request.

4. Nothing in this section shall be construed as requiring a separate hearing on each proposed rule. Proposed rules may be grouped for the convenience of the Commission at hearings required by this section.

J. Following the public hearing, the Commission shall consider all written and oral comments timely received.

K. The Commission shall, by majority vote of all delegates, take final action on the proposed rule and shall determine the effective date of the rule, if adopted, based on the rulemaking record and the full text of the rule.

1. If adopted, the rule shall be posted on the Commission's website.

2. The Commission may adopt changes to the proposed rule provided the changes do not enlarge the original purpose of the proposed rule.

3. The Commission shall provide on its website an explanation of the reasons for substantive changes made to the proposed rule, as well as reasons for substantive changes not made that were recommended by commenters.

4. The Commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in subsection L of this section, the effective date of the rule shall be no sooner than thirty (30) days after the Commission issued the notice that it adopted the rule.

L. Upon determination that an emergency exists, the Commission may consider and adopt an emergency rule with twenty-four (24) hours prior notice, without the opportunity for comment or hearing, provided that the usual rulemaking procedures provided in the Compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety (90) days after the effective date of the rule. For the purposes of this subsection, an emergency rule is one that must be adopted immediately by the Commission in order to:

1. Meet an imminent threat to public health, safety, or welfare;

2. Prevent a loss of Commission or participating state funds;

3. Meet a deadline for the promulgation of a Commission rule that is established by federal law or rule; or

4. Protect public health and safety.

M. The Commission or an authorized committee of the Commission may direct revisions to a previously adopted Commission rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made as set forth in the notice of revisions and delivered to the Commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

N. No participating state's rulemaking requirements shall apply under the Compact.

Added by Laws 2024, c. 22, § 9, eff. Nov. 1, 2024.

§59-545.10. Oversight — Default and termination — Dispute resolution — Enforcement.

A. Oversight:

1. The executive and judicial branches of state government in each participating state shall enforce the Compact and take all actions necessary and appropriate to implement the Compact;

2. Venue is proper and judicial proceedings by or against the Commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter; and

3. The Commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the Compact or the Commission's rules and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the Commission with service of process shall render a judgment or order in such proceeding void as to the Commission, the Compact, or Commission rules.

B. Default, technical assistance, and termination:

1. If the Commission determines that a participating state has defaulted in the performance of its obligations or responsibilities under the Compact or the Commission rules, the Commission shall provide written notice to the defaulting state and other

participating states. The notice shall describe the default, the proposed means of curing the default, and any other action that the Commission may take and shall offer remedial training and specific technical assistance regarding the default;

2. If a state in default fails to cure the default, the defaulting state may be terminated from the Compact upon an affirmative vote of a majority of the delegates of the participating states, and all rights, privileges, and benefits conferred by the Compact upon such state may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default;

3. Termination of participation in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and to the licensing boards of each of the participating states;

4. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination;

5. The Commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the Compact, unless agreed upon in writing between the Commission and the defaulting state;

6. The defaulting state may appeal its termination from the Compact by the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees; and

7. Upon the termination of a state's participation in the Compact, the state shall immediately provide notice to all licensees within that state of such termination:

a. licensees who have been granted a Compact privilege in that state shall retain the Compact privilege for one hundred eighty (180) days following the effective date of such termination, and

b. licensees who are licensed in that state who have been granted a Compact privilege in a participating state shall retain the Compact privilege for one hundred eighty (180) days unless the licensee also has a qualifying license in a participating state or obtains a qualifying license in a participating state before the one-hundred-eighty-day period ends, in which case the Compact privilege shall continue.

C. Dispute resolution:

1. Upon request by a participating state, the Commission shall attempt to resolve disputes related to the Compact that arise among participating states and between participating and nonparticipating states; and

2. The Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

D. Enforcement:

1. The Commission, in the reasonable exercise of its discretion, shall enforce the provisions of the Compact and rules of the Commission;

2. If compliance is not secured after all means to secure compliance have been exhausted, by majority vote, the Commission may initiate legal action in the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices against a participating state in default to enforce compliance with the provisions of the Compact and the Commission's promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees; and

3. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

E. Legal action against the Commission:

1. A participating state may initiate legal action against the Commission in the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices to enforce compliance with the provisions of the Compact and its rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

2. No person other than a participating state shall enforce the Compact against the Commission.

Added by Laws 2024, c. 22, § 10, eff. Nov. 1, 2024.

§59-545.11. Effective date — Withdrawal — Amendment.

A. The Compact shall come into effect on the date on which the Compact statute is enacted into law in the seventh participating state.

1. On or after the effective date of the Compact, the Commission shall convene and review the enactment of each of the states that enacted the Compact prior to the Commission convening "Charter Participating States" to determine if the statute enacted

by each such Charter Participating State is materially different than the model Compact:

a. A Charter Participating State whose enactment is found to be materially different from the model Compact shall be entitled to the default process set forth in subsection B of Section 10 of this Compact, and

b. If any participating state later withdraws from the Compact or its participation is terminated, the Commission shall remain in existence and the Compact shall remain in effect even if the number of participating states should be less than seven. Participating states enacting the Compact subsequent to the Commission convening shall be subject to the process set forth in paragraph 21 of subsection C of Section 7 of this Compact to determine if their enactments are materially different from the model Compact and whether they qualify for participation in the Compact;

2. Participating states enacting the Compact subsequent to the seven initial Charter Participating States shall be subject to the process set forth in paragraph 21 of subsection C of Section 7 of this Compact to determine if their enactments are materially different from the model Compact and whether they qualify for participation in the Compact; and

3. All actions taken for the benefit of the Commission or in furtherance of the purposes of the administration of the Compact prior to the effective date of the Compact or the Commission coming into existence shall be considered to be actions of the Commission unless specifically repudiated by the Commission.

B. Any state that joins the Compact shall be subject to the Commission's rules and bylaws as they exist on the date on which the Compact becomes law in that state. Any rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the Compact becomes law in that state.

C. Any participating state may withdraw from the Compact by enacting a statute repealing the same.

1. A participating state's withdrawal shall not take effect until one hundred eighty (180) days after enactment of the repealing statute. During this one-hundred-eighty-day period, all Compact privileges that were in effect in the withdrawing state and were granted to licensees licensed in the withdrawing state shall remain in effect. If any licensee licensed in the withdrawing state is also licensed in another participating state or obtains a license in another participating state within the one hundred eighty (180) days, the licensee's Compact privileges in other participating states shall not be affected by the passage of the one hundred eighty (180) days.

2. Withdrawal shall not affect the continuing requirement of the state licensing boards of the withdrawing state to comply with the investigative and adverse action reporting requirements of the Compact prior to the effective date of withdrawal.

3. Upon the enactment of a statute withdrawing a state from the Compact, the state shall immediately provide notice of such withdrawal to all licensees within that state. Such withdrawing state shall continue to recognize all licenses granted pursuant to the Compact for a minimum of one hundred eighty (180) days after the date of such notice of withdrawal.

D. Nothing contained in the Compact shall be construed to invalidate or prevent any PA licensure agreement or other cooperative arrangement between participating states and between a participating state and nonparticipating state that does not conflict with the provisions of the Compact.

E. The Compact may be amended by the participating states. No amendment to the Compact shall become effective and binding upon any participating state until it is enacted materially in the same manner into the laws of all participating states as determined by the Commission.

Added by Laws 2024, c. 22, § 11, eff. Nov. 1, 2024.

§59-545.12. Construction — Severability — Material departure.

A. The Compact and the Commission's rulemaking authority shall be liberally construed so as to effectuate the purposes and the implementation and administration of the Compact. Provisions of the Compact expressly authorizing or requiring the promulgation of rules shall not be construed to limit the Commission's rulemaking authority solely for those purposes.

B. The provisions of the Compact shall be severable, and if any phrase, clause, sentence, or provision of the Compact is held by a court of competent jurisdiction to be contrary to the constitution of any participating state, a state seeking participation in the Compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of the Compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

C. Notwithstanding subsection B of this section, the Commission may deny a state's participation in the Compact or, in accordance with the requirements of subsection B of Section 10 of this Compact, terminate a participating state's participation in the Compact, if it determines that a constitutional requirement of a participating state is, or would be with respect to a state seeking to participate in the Compact, a material departure from the Compact. Otherwise, if the Compact shall be held to be contrary to the constitution of

any participating state, the Compact shall remain in full force and effect as to the remaining participating states and in full force and effect as to the participating state affected as to all severable matters.
Added by Laws 2024, c. 22, § 12, eff. Nov. 1, 2024.

§59-545.13. Construction with other laws.

A. Nothing herein prevents the enforcement of any other law of a participating state that is not inconsistent with the Compact.

B. Any laws in a participating state in conflict with the Compact are superseded to the extent of the conflict.

C. All agreements between the Commission and the participating states are binding in accordance with their terms.
Added by Laws 2024, c. 22, § 13, eff. Nov. 1, 2024.

B. The Board may issue temporary critical need licenses for registered nurses, licensed practical nurses, and Advanced Practice Registered Nurses under Section 1 of this act.
Added by Laws 1953, p. 271, § 15, emerg. eff. April 13, 1953.

§59-567.16a. Establishing advisory committees.
The Oklahoma Board of Nursing may establish advisory committees as necessary to assist the Board in its efforts to protect the health and welfare of the citizens.
Added by Laws 1991, c. 104, § 13, eff. Sept. 1, 1991.

§59-567.17. Peer assistance program.
A. There is hereby established a peer assistance program to rehabilitate nurses whose competency may be compromised because of the abuse of drugs or alcohol, so that such nurses can be treated and can return to or continue the practice of nursing in a manner which will benefit the public. The program shall be under the supervision and control of the Oklahoma Board of Nursing.
B. The Board shall appoint one or more peer assistance evaluation advisory committees hereinafter called the "peer assistance committees". Each of these committees shall be composed of members, the majority of which shall be licensed nurses with expertise in chemical dependency. The peer assistance committees shall function under the authority of the Oklahoma Board of Nursing in accordance with the rules of the Board. The committee members shall serve without pay, but may be reimbursed for the expenses incurred in the discharge of their official duties in accordance with the State Travel Reimbursement Act.
C. The Board shall appoint and employ a qualified person, who shall be a registered nurse, to serve as program coordinator and shall fix such person's compensation. The Board shall define the duties of the program coordinator who shall report directly to the Executive Director of the Board and be subject to the Executive Director's direction and control.
D. The Board is authorized to adopt and revise rules, not inconsistent with the Oklahoma Nursing Practice Act, as may be necessary to enable it to carry into effect the provisions of this section.
E. A portion of licensing fees for each nurse not to exceed Ten Dollars ($10.00) may be used to implement and maintain the peer assistance program.
F. Records of the nurse enrolled in the peer assistance program shall be maintained in the program office in a place separate and

apart from the Board's records. The records shall be made public only by subpoena and court order; provided, however, confidential treatment shall be canceled upon default by the nurse in complying with the requirements of the program.

G. Any person making a report to the Board or to a peer assistance committee regarding a nurse suspected of practicing nursing while habitually intemperate or addicted to the use of habit-forming drugs, or a nurse's progress or lack of progress in rehabilitation, shall be immune from any civil or criminal action resulting from such reports, provided such reports are made in good faith.

H. A nurse's participation in the peer assistance program in no way precludes additional proceedings by the Board for acts or omissions of acts not specifically related to the circumstances resulting in the nurse's entry into the program. However, in the event the nurse defaults from the program, the Board may discipline the nurse for those acts which led to the nurse entering the program.

I. The Executive Director of the Board shall suspend the license of a licensee who applied and entered the peer assistance program by choice without any order by the Board immediately upon notification that the licensee has defaulted from the peer assistance program, and shall assign a hearing date for the matter to be presented to the Board. A licensee who was directed to apply and enter the peer assistance program by an order of the Board and who does not enter or who defaults from the peer assistance program for any reason shall be disciplined as set forth in the order of the Board that directed the nurse to apply and enter the peer assistance program.

J. Any person who enters the peer assistance program voluntarily or otherwise shall be responsible for any and all costs associated with participation in the peer assistance program.

K. A nurse may apply to participate in the peer assistance program by choice or may be directed to apply to the program by an order of the Board. In either case, conditions shall be placed on the nurse's license to practice nursing during the period of participation in the peer assistance program.

L. With regards to the peer assistance program, unless the context otherwise requires:

1. "Board" means the Oklahoma Board of Nursing;

2. "Peer assistance committee" means the peer assistance evaluation advisory committee created in this section, which is appointed by the Oklahoma Board of Nursing to carry out specified duties; and

terminated from the peer assistance program as defined in Board rules.

§59-567.18. Criminal history records and background checks.

A. Any applicant for a license or certificate described below shall be required to undergo a national criminal history background check as described in this section.

1. Registered Nurse (RN) license,

2. Advanced Practice Registered Nurse (APRN) license,

3. Practical Nurse License (LPN),

4. Advanced Unlicensed Assistant Certificate,

5. Multistate nursing license, when Oklahoma is the Primary State of Residence.

B. Licensing and certification decisions shall be based on, in addition to other licensure requirements, a criminal history records search conducted by the Oklahoma State Bureau of Investigation that is not more than ninety (90) days old.

C. Contingent upon available resources by the Board, all criminal background checks effective January 1, 2013, are subject to the following:

1. Submission of a full set of fingerprints to the Board for the purpose of permitting a state and federal criminal history records search pursuant to Section 150.9 of Title 74 of the Oklahoma Statutes and Public Law 92-544 that is not more than ninety (90) days old. The Oklahoma State Bureau of Investigation may exchange these fingerprints with the Federal Bureau of Investigation;

2. The applicant shall furnish the Board fingerprints as established by Board rules and a money order or cashier's check made payable to the Oklahoma State Bureau of Investigation or the Board's designated vendor;

3. The Board shall forward the fingerprints along with the applicable fee for a national fingerprint criminal history records search to the Bureau;

4. The Bureau shall search the Oklahoma Automated Fingerprint Identification System and forward fingerprints to the FBI for a national criminal history records search;

5. Any and all state and federal criminal history record information obtained by the Board from the Bureau or the FBI which is not already a matter of public record shall be deemed nonpublic. The confidential information shall be restricted to the exclusive use of the Board, its members, officers, investigators, agents, and attorneys in evaluating the applicant's eligibility or disqualification for licensure; and

6. Fingerprint images may be rejected by the OSBI and the FBI for a variety of reasons, including, but not limited to, fingerprint quality or an inability by the OSBI or FBI to classify the fingerprints. These rejections require the applicant to be fingerprinted again. Applicants with fingerprints rejected for improper registration will be required to re-register, re-pay and be re-fingerprinted. Applicant is responsible for insuring and verifying that all data is correct in the fingerprinting process.

D. The necessary steps to initiate the criminal background checks may be performed by the Board or its designated vendor.

E. An individual applying for any type of multistate license, when Oklahoma is the primary state of residence, shall submit to a criminal background check that complies with this section; provided, however, that if the individual has been continuously enrolled in the Federal Bureau of Investigation's Rap Back Service since issuance of the initial multistate license, the individual shall not be required to undergo another criminal history record search. No criminal history record information will be disseminated outside the Board, as described in paragraph 5 of this subsection.

§59-567.19. Rescission or withdrawal of license.

If a license is issued pursuant to this act to a person not entitled under this act to be licensed, the Executive Director may rescind or withdraw the license instanter, pending the final outcome of proceedings. In such cases, the Executive Director shall notify the licensee of such action by certified mail, return receipt requested, and shall include in such notice a provision that the licensee may request a hearing concerning the emergency action and opportunity to show that the license should be reinstated.
Added by Laws 2011, c. 101, § 12, eff. Nov. 1, 2011.

§59-567.20. Nursing education programs for veterans.

On or before December 31, 2015, the Oklahoma Board of Nursing shall develop program guidelines for Board-approved nursing education programs to utilize in transitioning veterans with prior military medical training and experience into nursing education programs. The process of transition shall include the provisions of Section 4100.3 of Title 59 of the Oklahoma Statutes.
Added by Laws 2014, c. 54, § 1, eff. Nov. 1, 2014.

§59-567.21. Nurse Licensure Compact.

Nurse Licensure Compact

ARTICLE I

Findings and Declaration of Purpose

a. The party states find that:

1. The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws;

2. Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;

3. The expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation;

4. New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex;

5. The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states; and

6. Uniformity of nurse licensure requirements among the states promotes public safety and public health benefits.

b. The general purposes of this Compact are to:

1. Facilitate the states' responsibility to protect the public's health and safety;

2. Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation;

3. Facilitate the exchange of information among party states in the areas of nurse regulation, investigation and adverse actions;

4. Promote compliance with the laws governing the practice of nursing in each jurisdiction;

5. Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party-state licenses;

6. Decrease redundancies in the consideration and issuance of nurse licenses; and

7. Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

ARTICLE II

Definitions

As used in this Compact:

a. "Adverse action" means any administrative, civil, equitable or criminal action permitted by a state's laws which is imposed by a licensing board or other authority against a nurse, including actions against an individual's license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation on the licensee's practice, or any other encumbrance on licensure affecting a nurse's authorization to practice, including issuance of a cease and desist action.

b. "Alternative program" means a nondisciplinary monitoring program approved by a licensing board.

c. "Coordinated licensure information system" means an integrated process for collecting, storing and sharing information on nurse licensure and enforcement activities related to nurse licensure laws that is administered by a nonprofit organization composed of and controlled by licensing boards.

d. "Current significant investigative information" means:

1. Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond, if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction; or

2. Investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.

e. "Encumbrance" means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.

f. "Home state" means the party state which is the nurse's primary state of residence.

g. "Licensing board" means a party state's regulatory body responsible for issuing nurse licenses.

h. "Multistate license" means a license to practice as a registered or a licensed practical/vocational nurse (LPN/VN) issued by a home-state licensing board that authorizes the licensed nurse to practice in all party states under a multistate licensure privilege.

i. "Multistate licensure privilege" means a legal authorization associated with a multistate license permitting the practice of nursing as either a registered nurse (RN) or LPN/VN in a remote state.

j. "Nurse" means RN or LPN/VN, as those terms are defined by each party state's practice laws.

k. "Party state" means any state that has adopted this Compact.

l. "Remote state" means a party state, other than the home state.

m. "Single-state license" means a nurse license issued by a party state that authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.

n. "State" means a state, territory or possession of the United States and the District of Columbia.

o. "State practice laws" means a party state's laws, rules and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. State practice laws do not include requirements

necessary to obtain and retain a license, except for qualifications or requirements of the home state.

ARTICLE III

General Provisions and Jurisdiction

a. A multistate license to practice registered or licensed practical/vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as a registered nurse (RN) or as a licensed practical/vocational nurse (LPN/VN), under a multistate licensure privilege, in each party state.

b. A state must implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.

c. Each party state shall require the following for an applicant to obtain or retain a multistate license in the home state:

1. Meets the home state's qualifications for licensure or renewal of licensure, as well as all other applicable state laws;

2. i. Has graduated or is eligible to graduate from a licensing-board-approved RN or LPN/VN prelicensure education program; or

ii. Has graduated from a foreign RN or LPN/VN prelicensure education program that (a) has been approved by the authorized accrediting body in the applicable country and (b) has been verified by an independent credentials review agency to be comparable to a licensing-board-approved prelicensure education program;

3. Has, if a graduate of a foreign prelicensure education program, not taught in English or if English is not the individual's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing and listening;

4. Has successfully passed an NCLEX-RN© or NCLEX-PN© Examination or recognized predecessor, as applicable;

5. Is eligible for or holds an active, unencumbered license;

6. Has submitted, in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records;

7. Has not been convicted or found guilty, or has entered into an agreed disposition, of a felony offense under applicable state or federal criminal law;

8. Has not been convicted or found guilty, or has entered into an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis;

9. Is not currently enrolled in an alternative program;

10. Is subject to self-disclosure requirements regarding current participation in an alternative program; and

11. Has a valid United States Social Security number.

d. All party states shall be authorized, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege such as revocation, suspension, probation or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

e. A nurse practicing in a party state must comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege will subject a nurse to the jurisdiction of the licensing board, the courts and the laws of the party state in which the client is located at the time service is provided.

f. Individuals not residing in a party state shall continue to be able to apply for a party state's single-state license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state. Nothing in this Compact shall affect the requirements established by a party state for the issuance of a single-state license.

g. Any nurse holding a home-state multistate license on the effective date of this Compact may retain and renew the multistate license issued by the nurse's then-current home state, provided that:

1. A nurse, who changes primary state of residence after this Compact's effective date, must meet all applicable Article III.c. requirements to obtain a multistate license from a new home state.

2. A nurse who fails to satisfy the multistate licensure requirements in Article III.c. due to a disqualifying event occurring after this Compact's effective date shall be ineligible to

retain or renew a multistate license, and the nurse's multistate license shall be revoked or deactivated in accordance with applicable rules adopted by the Interstate Commission of Nurse Licensure Compact Administrators (Commission).

ARTICLE IV

Applications for Licensure in a Party State

a. Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant and whether the applicant is currently participating in an alternative program.

b. A nurse may hold a multistate license, issued by the home state, in only one party state at a time.

c. If a nurse changes primary state of residence by moving between two party states, the nurse must apply for licensure in the new home state, and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the Commission.

1. The nurse may apply for licensure in advance of a change in primary state of residence.

2. A multistate license shall not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

d. If a nurse changes primary state of residence by moving from a party state to a nonparty state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state.

ARTICLE V

Additional Authorities Invested in Party-state Licensing Boards

a. In addition to the other powers conferred by state law, a licensing board shall have the authority to:

1. Take adverse action against a nurse's multistate licensure privilege to practice within that party state.

i. Only the home state shall have the power to take adverse action against a nurse's license issued by the home state.

ii. For purposes of taking adverse action, the home-state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall

apply its own state laws to determine appropriate action;

2. Issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state;

3. Complete any pending investigations of a nurse who changes primary state of residence during the course of such investigations. The licensing board shall also have the authority to take appropriate action(s) and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions;

4. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses, as well as the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage and other fees required by the service statutes of the state in which the witnesses or evidence are located;

5. Obtain and submit, for each nurse licensure applicant, fingerprint or other biometric-based information to the Federal Bureau of Investigation for criminal background checks, receive the results of the Federal Bureau of Investigation record search on criminal background checks and use the results in making licensure decisions;

6. If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse; and

7. Take adverse action based on the factual findings of the remote state, provided that the licensing board follows its own procedures for taking such adverse action.

b. If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states shall be deactivated until all encumbrances have been removed from the multistate license. All home-state disciplinary orders that impose adverse action against a nurse's multistate license shall include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.

c. Nothing in this Compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action. The home-state licensing board shall deactivate the multistate licensure privilege under the multistate

license of any nurse for the duration of the nurse's participation in an alternative program.

ARTICLE VI

Coordinated Licensure Information System and Exchange of Information

a. All party states shall participate in a coordinated licensure information system of all licensed registered nurses (RNs) and licensed practical/vocational nurses (LPNs/VNs). This system will include information on the licensure and disciplinary history of each nurse, as submitted by party states, to assist in the coordination of nurse licensure and enforcement efforts.

b. The Commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection and exchange of information under this Compact.

c. All licensing boards shall promptly report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications (with the reasons for such denials) and nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic or confidential under state law.

d. Current significant investigative information and participation in nonpublic or confidential alternative programs shall be transmitted through the coordinated licensure information system only to party-state licensing boards.

e. Notwithstanding any other provision of law, all party-state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

f. Any personally identifiable information obtained from the coordinated licensure information system by a party-state licensing board shall not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

g. Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information shall also be expunged from the coordinated licensure information system.

h. The Compact administrator of each party state shall furnish a uniform data set to the Compact administrator of each other party state, which shall include, at a minimum:

1. Identifying information;

2. Licensure data;

3. Information related to alternative program participation; and

4. Other information that may facilitate the administration of this Compact, as determined by Commission rules.

i. The Compact administrator of a party state shall provide all investigative documents and information requested by another party state.

ARTICLE VII

Establishment of the Interstate Commission of Nurse Licensure Compact Administrators

a. The party states hereby create and establish a joint public entity known as the Interstate Commission of Nurse Licensure Compact Administrators.

1. The Commission is an instrumentality of the party states.

2. Venue is proper, and judicial proceedings by or against the Commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

3. Nothing in this Compact shall be construed to be a waiver of sovereign immunity.

b. Membership, Voting and Meetings

1. Each party state shall have and be limited to one administrator. The head of the state licensing board or designee shall be the administrator of this Compact for each party state. Any administrator may be removed or suspended from office as provided by the laws of the state from which the administrator is appointed. Any vacancy occurring in the Commission shall be filled in accordance with the laws of the party state in which the vacancy exists.

2. Each administrator shall be entitled to one (1) vote with regard to the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the business and affairs of the Commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.

3. The Commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws or rules of the Commission.

4. All meetings shall be open to the public, and public notice of meetings shall be given in the same manner as required under the rulemaking provisions in Article VIII of this Compact.

5. The Commission may convene in a closed, nonpublic meeting if the Commission must discuss:

i. Noncompliance of a party state with its obligations under this Compact;
ii. The employment, compensation, discipline or other personnel matters, practices or procedures related to specific employees or other matters related to the Commission's internal personnel practices and procedures;
iii. Current, threatened or reasonably anticipated litigation;
iv. Negotiation of contracts for the purchase or sale of goods, services or real estate;
v. Accusing any person of a crime or formally censuring any person;
vi. Disclosure of trade secrets or commercial or financial information that is privileged or confidential;
vii. Disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;
viii. Disclosure of investigatory records compiled for law enforcement purposes;
ix. Disclosure of information related to any reports prepared by or on behalf of the Commission for the purpose of investigation of compliance with this Compact; or
x. Matters specifically exempted from disclosure by federal or state statute.

6. If a meeting, or portion of a meeting, is closed pursuant to this provision, the Commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The Commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Commission or order of a court of competent jurisdiction.

c. The Commission shall, by a majority vote of the administrators, prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this Compact, including but not limited to:

1. Establishing the fiscal year of the Commission;
2. Providing reasonable standards and procedures:
i. For the establishment and meetings of other committees; and

ii. Governing any general or specific delegation of any authority or function of the Commission;

3. Providing reasonable procedures for calling and conducting meetings of the Commission, ensuring reasonable advance notice of all meetings and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The Commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the Commission must make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed;

4. Establishing the titles, duties and authority and reasonable procedures for the election of the officers of the Commission;

5. Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the Commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws shall exclusively govern the personnel policies and programs of the Commission; and

6. Providing a mechanism for winding up the operations of the Commission and the equitable disposition of any surplus funds that may exist after the termination of this Compact after the payment or reserving of all of its debts and obligations.

d. The Commission shall publish its bylaws and rules, and any amendments thereto, in a convenient form on the website of the Commission.

e. The Commission shall maintain its financial records in accordance with the bylaws.

f. The Commission shall meet and take such actions as are consistent with the provisions of this Compact and the bylaws.

g. The Commission shall have the following powers:

1. To promulgate uniform rules to facilitate and coordinate implementation and administration of this Compact. The rules shall have the force and effect of law and shall be binding in all party states;

2. To bring and prosecute legal proceedings or actions in the name of the Commission; provided, that the standing of any licensing board to sue or be sued under applicable law shall not be affected;

3. To purchase and maintain insurance and bonds;

4. To borrow, accept or contract for services of personnel, including, but not limited to, employees of a party state or nonprofit organizations;

5. To cooperate with other organizations that administer state compacts related to the regulation of nursing, including but not limited to sharing administrative or staff expenses, office space or other resources;

6. To hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of this Compact, and to establish the Commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel and other related personnel matters;

7. To accept any and all appropriate donations, grants and gifts of money, equipment, supplies, materials and services, and to receive, utilize and dispose of the same; provided, that at all times the Commission shall avoid any appearance of impropriety or conflict of interest;

8. To lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve or use, any property, whether real, personal or mixed; provided, that at all times the Commission shall avoid any appearance of impropriety;

Rulemaking

a. The Commission shall exercise its rulemaking powers pursuant to the criteria set forth in this Article and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment and shall have the same force and effect as provisions of this Compact.

b. Rules or amendments to the rules shall be adopted at a regular or special meeting of the Commission.

c. Prior to promulgation and adoption of a final rule or rules by the Commission, and at least sixty (60) days in advance of the meeting at which the rule will be considered and voted upon, the Commission shall file a notice of proposed rulemaking:

1. On the website of the Commission; and

2. On the website of each licensing board or the publication in which each state would otherwise publish proposed rules.

d. The notice of proposed rulemaking shall include:

1. The proposed time, date and location of the meeting in which the rule will be considered and voted upon;

2. The text of the proposed rule or amendment, and the reason for the proposed rule;

3. A request for comments on the proposed rule from any interested person; and

4. The manner in which interested persons may submit notice to the Commission of their intention to attend the public hearing and any written comments.

e. Prior to adoption of a proposed rule, the Commission shall allow persons to submit written data, facts, opinions and arguments, which shall be made available to the public.

f. The Commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.

g. The Commission shall publish the place, time and date of the scheduled public hearing.

1. Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings will be recorded, and a copy will be made available upon request.

2. Nothing in this Article shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the Commission at hearings required by this Article.

h. If no one appears at the public hearing, the Commission may proceed with promulgation of the proposed rule.

i. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the Commission shall consider all written and oral comments received.

j. The Commission shall, by majority vote of all administrators, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

k. Upon determination that an emergency exists, the Commission may consider and adopt an emergency rule without prior notice, opportunity for comment or hearing; provided, that the usual rulemaking procedures provided in this Compact and in this Article

shall be retroactively applied to the rule as soon as reasonably possible, and in no event later than ninety (90) days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

1. Meet an imminent threat to public health, safety or welfare;

2. Prevent a loss of Commission or party state funds; or

3. Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

1. The Commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the Commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

ARTICLE IX

Oversight, Dispute Resolution and Enforcement

a. Oversight

1. Each party state shall enforce this Compact and take all actions necessary and appropriate to effectuate this Compact's purposes and intent.

2. The Commission shall be entitled to receive service of process in any proceeding that may affect the powers, responsibilities or actions of the Commission, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process in such proceeding to the Commission shall render a judgment or order void as to the Commission, this Compact or promulgated rules.

b. Default, Technical Assistance and Termination

1. If the Commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this Compact or the promulgated rules, the Commission shall:

i. Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default or any other action to be taken by the Commission; and

ii. Provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to cure the default, the defaulting state's membership in this Compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges and benefits conferred by this Compact may be

terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in this Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.

4. A state whose membership in this Compact has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

5. The Commission shall not bear any costs related to a state that is found to be in default or whose membership in this Compact has been terminated unless agreed upon in writing between the Commission and the defaulting state.

6. The defaulting state may appeal the action of the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district in which the Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

c. Dispute Resolution

1. Upon request by a party state, the Commission shall attempt to resolve disputes related to the Compact that arise among party states and between party and nonparty states.

2. The Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

3. In the event the Commission cannot resolve disputes among party states arising under this Compact:

i. The party states may submit the issues in dispute to an arbitration panel, which will be comprised of individuals appointed by the Compact administrator in each of the affected party states and an individual mutually agreed upon by the Compact administrators of all the party states involved in the dispute.

ii. The decision of a majority of the arbitrators shall be final and binding.

d. Enforcement

1. The Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this Compact.

2. By majority vote, the Commission may initiate legal action in the U.S. District Court for the District of Columbia or the federal district in which the Commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this Compact and its promulgated rules and bylaws.

The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

3. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

ARTICLE X

Effective Date, Withdrawal and Amendment

a. This Compact shall become effective and binding on the earlier of the date of legislative enactment of this Compact into law by no less than twenty-six (26) states or December 31, 2018. All party states to this Compact that also were parties to the prior Nurse Licensure Compact superseded by this Compact (Prior Compact) shall be deemed to have withdrawn from said Prior Compact within six (6) months after the effective date of this Compact.

b. Each party state to this Compact shall continue to recognize a nurse's multistate licensure privilege to practice in that party state issued under the Prior Compact until such party state has withdrawn from the Prior Compact.

c. Any party state may withdraw from this Compact by enacting a statute repealing the same. A party state's withdrawal shall not take effect until six (6) months after enactment of the repealing statute.

d. A party state's withdrawal or termination shall not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of such withdrawal or termination.

e. Nothing contained in this Compact shall be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this Compact.

f. This Compact may be amended by the party states. No amendment to this Compact shall become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

g. Representatives of nonparty states to this Compact shall be invited to participate in the activities of the Commission, on a nonvoting basis, prior to the adoption of this Compact by all states.

ARTICLE XI

Construction and Severability

This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable, and if any phrase, clause, sentence or provision of this

Compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this Compact shall be held to be contrary to the constitution of any party state, this Compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

regulation promulgated by the Board pursuant to the provisions of this chapter or any violation of this chapter. The following acts shall be deemed by the Board as unprofessional and unethical conduct:

1. Employment by an Oklahoma-licensed optometrist of any person to solicit from house to house the sale of lenses, frames, spectacles, or optometric services or examinations;

2. Selling, advertising, or soliciting the sale of spectacles, eyeglasses, lenses, frames, mountings, eye examinations, or optometric services by house-to-house canvassing either in person or through solicitors;

3. Acceptance of employment, either directly or indirectly, by an Oklahoma-licensed optometrist from an unlicensed optometrist or person engaged in any profession or business or owning or operating any profession or business to assist it, him or her, or them in practicing optometry in this state; provided that renting a separate area or room within or adjacent to a retail store pursuant to Section 944 of this title shall not be considered as direct or indirect employment, but any signage and advertisement of the optometric practice shall conform with Section 943.1 of this title;

The rules may prescribe which acts are detrimental to the general public health or welfare and may prescribe a minimum standard of sanitation, hygiene, and professional surroundings, and which acts constitute unprofessional or unethical conduct. The conduct shall be grounds for revocation or suspension of the license or certificate issued pursuant to the provisions of Section 584 of this title.

C. If an out-of-state license or certificate of an optometrist who also holds an Oklahoma license or certificate is suspended or revoked for any reason, the optometrist's Oklahoma license may come under review by the Board. Should the out-of-state suspension or revocation be on grounds the same or similar to grounds for suspension or revocation in Oklahoma, the Board, after notice and hearing pursuant to the provisions of this section, may suspend or revoke the certificate of the optometrist to practice in Oklahoma.

D. The following acts shall not be deemed by the Board as unprofessional and unethical conduct:

4. Other actions that indicate inability to practice with reasonable skill and safety.

P. The Board shall consider violation of any of the Rules of Professional Conduct a violation of the Oklahoma Veterinary Practice Act section on unprofessional conduct and shall proceed with disciplinary action as set out in the Oklahoma Veterinary Practice Act.

Q. 1. In addition to other penalties prescribed by the Oklahoma Veterinary Practice Act, any person who the Board has determined by clear and convincing evidence to have violated any provisions of the Oklahoma Veterinary Practice Act, or any rule or order issued pursuant thereto shall be liable for an administrative penalty of not more than Five Thousand Dollars ($5,000.00) for each day that the violation continues.

2. The amount of the penalty shall be assessed by the Board pursuant to the provisions of paragraph 1 of this subsection, after notice and hearing. In determining the amount of the penalty, the Board shall, by clear and convincing evidence, include, but not be limited to, consideration of the nature, circumstances, and gravity of the violation and, with respect to the person found to have committed the violation, the degree of culpability, the effect on ability of the person to continue to do business, and any show of good faith in attempting to achieve compliance with the provisions of the Oklahoma Veterinary Practice Act.

§59-698.14b. Inability to practice due to mental illness or drug abuse - Required submission to alcohol or drug testing - Actions of Board - Reporting of impaired performance.

A. Impairment is defined as the inability of a person to practice veterinary medicine with reasonable skill and safety by reason of:

1. Mental illness; or

2. Habitual use or excessive use or abuse of drugs or chemicals defined in law as controlled substances or habit-forming substances, to include, but not be limited to, alcohol or other substances that impair the ability of the licensee or certificate holder to practice veterinary medicine.

B. Upon probable cause, the State Board of Veterinary Medical Examiners may require a licensee or certificate holder or applicant for license or certificate to submit to any test to determine the use of alcohol or drugs which affects the ability of the licensee or certificate holder to practice veterinary medicine. The Board, by rule, shall establish the nature and criteria for any such test. The results of the test shall be admissible in any hearing before the Board. Failure to submit to the required test by any licensee, certificate holder or applicant when properly directed to do so by the Board shall be grounds for disciplinary action against a licensee or certificate holder and, for any applicant, shall be grounds for denial of license or certificate.

C. Upon findings by the Board, after evaluation and hearing, that the licensee, certificate holder or applicant is impaired, the Board may take one of the following actions or any other action deemed appropriate to the circumstances by the Board:

1. Direct the person to submit to care, counseling or treatment acceptable to the Board;

2. Suspend, limit or restrict the license or certificate to practice for the duration of the impairment; or

3. Revoke or refuse to renew the license or certificate or deny the application.

D. Any person who is prohibited from practicing pursuant to the provisions of this section shall be afforded at reasonable intervals the opportunity to present evidence or material not before seen by the Board to demonstrate to the satisfaction of the Board that such person can resume or begin the practice of veterinary medicine with

reasonable skill and safety; provided, that all fees have been paid and all requirements for licensure, certification, reinstatement or other form of authorization to practice have been satisfactorily completed.

E. 1. All licensees, certificate holders or faculty of veterinary medical schools shall report to the Board information about any and all colleagues that shows the colleagues are impaired.

2. The Board may establish rules for the approval of medically directed, nonprofit, voluntary treatment programs for impaired practitioners and to set standards for the treatment of practitioners.

3. The Board may exempt from reporting those who are conducting a Board-approved treatment program; provided that the impaired veterinarian who is participating in the program is doing so satisfactorily. Should the impaired veterinarian leave the program without first achieving a release by the program, the administrator of the program is required to report same to the Board. Participation in an approved treatment program does not protect an impaired veterinarian from Board action resulting from a report from another source of violation of the Oklahoma Veterinary Practice Act, whether related to the impairment or not.

4. Programs for the treatment of impaired professionals approved by this Board shall be reviewed annually or more frequently at the Board's discretion.

Added by Laws 1990, c. 314, § 14, eff. Sept. 1, 1990. Amended by Laws 1999, c. 94, § 17, eff. Nov. 1, 1999.

Cost of each copy shall not exceed the amount specified in the Open Records Act per page, and no more than a reasonable cost of duplicating diagnostic images, tapes, or radiographs. There shall be no search fees assessed for the production or retrieval of any medical records.

D. 1. No veterinarian licensed pursuant to the Oklahoma Veterinary Practice Act shall be required to disclose any information concerning the licensed veterinarian's care of an animal except on written authorization or by other waiver by the licensed veterinarian's client or on appropriate court order, by subpoena or as otherwise provided by this section.

2. Copies of or information from veterinary records shall be provided without the owner's consent to public or animal health, wildlife or agriculture authorities, employed by federal, state or local governmental agencies who have a legitimate interest in the contents of said records for the protection of animal and public health.

§59-698.19A. Field citation – Probable cause committee – Contest hearing – Fine.

A. 1. If, upon completion of an investigation, the Executive Director of the State Board of Veterinary Medical Examiners has

probable cause to believe that a licensed veterinarian or any other person has violated provisions of the Oklahoma Veterinary Practice Act or rules promulgated thereto, the Executive Director may issue a field citation to the licensed veterinarian or other person, as provided in this section. Each field citation shall be in writing and shall describe with particularity the nature of the violation, including but not limited to a reference to the provision of the Oklahoma Veterinary Practice Act alleged to have been violated.

2. In addition, each field citation may contain an order of abatement fixing a reasonable time for abatement of the violation, and may contain an assessment of an administrative penalty not to exceed Five Hundred Dollars ($500.00) for a first offense and not to exceed Five Thousand Dollars ($5,000.00) for a second or each subsequent offense. Each day such violation continues shall constitute a separate offense.

3. The field citation shall be served upon the licensed veterinarian or other person personally or by any certified mail, return receipt requested.

B. Before any field citation shall be issued to any licensed veterinarian, the Executive Director shall have submitted the alleged violation for the review and examination to a probable cause committee, comprised of the Board's attorney, an investigator, and a veterinarian licensed in the state of Oklahoma. The probable cause committee, during its review, may contact the licensed veterinarian to discuss and resolve the alleged violation. Upon conclusion of the probable cause committee's review, the committee shall prepare findings of fact and a recommendation. If the committee concludes that probable cause exists that the veterinarian has violated any provisions of the Oklahoma Veterinary Practice Act or rules promulgated thereto, an administrative penalty shall be assessed upon the licensed veterinarian.

C. 1. If a licensed veterinarian or other person who has been determined by the Board or agent thereof to have violated any provision of the Oklahoma Veterinary Practice Act or rules promulgated or issued pursuant thereto desires to contest a field citation or the proposed assessment of an administrative penalty therefore, the licensed veterinarian or other person shall, within ten (10) business days after service of the field citation, notify the Executive Director in writing, requesting an informal conference with the probable cause committee.

2. The probable cause committee shall hold, within sixty (60) days from the receipt of the written request, an informal conference. After the conclusion of the informal conference, and based on recommendations thereof, the Executive Director may affirm, modify or dismiss the field citation or proposed assessment of an administrative penalty and the Executive Director shall state with particularity in writing the reasons for the action, and shall

immediately transmit a copy thereof to the licensed veterinarian or other person and the person who submitted the complaint.

D. 1. If the veterinarian or person desires to contest administratively, a decision made after the informal conference, the licensed veterinarian or other person shall inform the Executive Director in writing within thirty (30) calendar days after such person receives the decision resulting from the informal conference.

2. If the licensed veterinarian or other person fails to request an informal conference within the time specified in this section, the field citation, the proposed assessment of the administrative penalty or the decision made after an informal conference shall be deemed a final order of the Board and shall not be subject to further administrative reviews.

E. If a fine is paid to satisfy an assessment based on the findings of a violation, payment of the fine shall be represented as satisfactory resolution of the matter for the purposes of public disclosure.

F. A veterinarian or other person, in lieu of contesting a field citation pursuant to this section, may transmit to the Board the amount assessed in the citation as an administrative penalty, within thirty (30) days after service of the field citation. If a hearing is not requested pursuant to this section, payment of any fine shall not constitute an admission of the violation charged.

G. 1. If a veterinarian or other person has notified the Executive Director within ten (10) working days of the issuance of the assessment or field citation that such veterinarian or other person intends to contest the decision made after the informal conference, the Board shall hold a hearing to be held in accordance with the Administrative Procedures Act and adjudicating such matters for judgment only upon clear and convincing evidence as required by the Oklahoma Veterinary Practice Act with the Board having all of the powers granted therein.

2. After the hearing, the Board shall issue a decision based on findings of the fact, affirming, modifying or vacating the citation, or directing other appropriate relief which shall include, but need not be limited to, a notice that the failure of the veterinarian or other person to comply with any provision of the Board’s decision may subject such veterinarian or person to the imposition of the sanctions authorized by the Oklahoma Veterinary Practice Act.

H. After the exhaustion of the review procedures provided for in this section, the Board may bring an action for judicial review and administrative penalty and obtain an order compelling the cited person to comply with any order issued pursuant to this section.

I. Failure of a licensee to pay a fine within thirty (30) days of the date of assessment, unless the field citation is being appealed may result in action being taken by the Board. When a citation is not contested and a fine is not paid, the full amount of

the assessed fine shall be added to the fee for the renewal of the license. A license shall not be renewed without payment of the renewal fee and fine.

J. The Board shall promulgate rules covering the issuance of field citations, the assessment of administrative penalties and other duties specified by this section pursuant to this section which give due consideration to the appropriateness of the penalty with respect to the following factors:

a. the gravity of the violation,

b. the good faith of the person being charged, and

c. the history of previous violations.

E. If at any time the monies in the Oklahoma Real Estate Education and Recovery Fund are insufficient to satisfy any valid claim, or portion thereof, the Commission shall satisfy such unpaid claim or portion thereof as soon as a sufficient amount of money has been deposited in the fund by collecting a special levy from members of the fund of an amount not to exceed Five Dollars ($5.00) each fiscal year. If the additional levy is not sufficient to pay all outstanding claims against the fund, the claims shall be paid as the money becomes available. Where there is more than one claim outstanding, the claims shall be paid in the order that they were approved.

F. Any claim against a corporation, association or partnership would be imputed to the managing broker(s) at the time the cause of action arose.

G. The license of said licensee shall be automatically revoked upon the payment of any amount from the Oklahoma Real Estate Education and Recovery Fund on a judgment against a licensee. The license shall not be considered for reinstatement until the licensee has repaid in full, plus interest at the rate of seven percent (7%) a year, the amount paid from the Oklahoma Real Estate Education and Recovery Fund on the judgment against the licensee.

§59-858-701. Legislative intent - Purpose of act.

It is the intent of the Legislature to develop a real estate appraiser certification process which meets the federal guidelines set forth in the Financial Institutions Reform, Recovery, and Enforcement Act of 1989. The purpose of the Oklahoma Certified Real Estate Appraisers Act is to provide appraisers within the state a process for certification which will allow them to participate in a federally related transaction and real estate-related financial transactions of the agencies, instrumentalities and federally recognized entities as defined and recognized in Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989. It is not the intent of this legislation to prevent any person who is currently conducting business as an appraiser from continuing such action unless such action involves a federally related transaction or a real estate-related financial transaction as defined in Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989.

Added by Laws 1990, c. 327, § 2, emerg. eff. May 31, 1990. Amended by Laws 1996, c. 318, § 6, eff. July 1, 1996.

Added by Laws 1990, c. 327, § 3, emerg. eff. May 31, 1990. Amended by Laws 1996, c. 318, § 7, eff. July 1, 1996; Laws 2006, c. 165, § 1, eff. Nov. 1, 2006.

§59-858-703. Definitions.

As used in the Oklahoma Certified Real Estate Appraisers Act:

1. "Appraisal" or "real estate appraisal" means an analysis, opinion or conclusion relating to the nature, quality, value or utility of specified interests in, or aspects of, identified real estate other than oil, gas, coal, water and all other energy and nonfuel mineral and elements or the value of underground space to be used for storage of commodities or for the disposal of waste unless they are appraised as part of a federally related transaction covered by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989. An appraisal may be classified by subject matter into either a valuation or an analysis. A "valuation" is an estimate of the value of real estate or real property. An "analysis" is a study of real estate or real property other than estimating value;

2. "Appraisal report" means any written or oral communication of an appraisal;

3. "Appraisal Subcommittee" means the subcommittee created by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989;

4. "Appraiser Qualifications Board" (AQB) means the independent board appointed by the Board of Trustees of the Appraisal Foundation. The AQB establishes educational, experience, and examination criteria for appraisers. Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 requires that state certified appraisers must meet the minimum qualifications set by the AQB;

5. "Board" means the Real Estate Appraiser Board established pursuant to the provisions of the Oklahoma Certified Real Estate Appraisers Act;

6. "Certification" shall refer to either a trainee appraiser, a state licensed appraiser, a state certified residential appraiser or a state certified general appraiser;

7. "Certified appraisal or certified appraisal report" means an appraisal or appraisal report given or signed and certified as such by a trainee appraiser, a state licensed, state certified residential or state certified general real estate appraiser. When

identifying an appraisal or appraisal report as "certified", the trainee, state licensed, state certified residential or state certified general real estate appraiser must indicate which type of certification is held. A certified appraisal or appraisal report represents to the public that it meets the appraisal standards defined in the Oklahoma Certified Real Estate Appraisers Act;

8. "Chairperson" means the chairperson of the Real Estate Appraiser Board;

9. "Department" means the Insurance Department;

10. "Director" means the individual employed by the Board who is responsible for supervising the regulation of appraiser and appraisal management companies' credentialing and enforcement programs; serves as liaison between the Board and other state and federal entities and professional organizations; directs and coordinates the day-to-day operations of the Board including training staff, budgeting and ensuring adherence to the Oklahoma Open Meeting Act and the Oklahoma Open Records Act;

11. "Real estate" means an identified parcel or tract of land including improvements, if any;

12. "Real property" means one or more defined interests, benefits, and rights inherent in the ownership of real estate;

13. "Trainee, state licensed, state certified residential or state certified general real estate appraiser" means a person who develops and communicates real estate appraisals and who holds a current, valid certificate issued to such person for either general or residential real estate pursuant to provisions of the Oklahoma Certified Real Estate Appraisers Act;

14. "Appraisal assignment" means an engagement for which an appraiser is employed or retained to act, or would be perceived by third parties or the public as acting, as a disinterested third party in rendering an unbiased analysis, opinion or conclusion relating to the nature, quality, value or utility of specified interests in, or aspects of, identified real estate; and

15. "Specialized services" means those appraisal services which do not fall within the definition of appraisal assignment. The term "specialized services" may include valuation work and analysis work. Regardless of the intention of the client or employer, if the appraiser would be perceived by third parties or the public as acting as a disinterested third party in rendering an unbiased analysis, opinion or conclusion, the work is classified as an appraisal assignment and not "specialized services".

Added by Laws 1990, c. 327, § 4, emerg. eff. May 31, 1990. Amended by Laws 1991, c. 271, § 1, eff. Sept. 1, 1991; Laws 1992, c. 132, § 1, eff. Sept. 1, 1992; Laws 1994, c. 144, § 1, eff. §59-858-704. Use of term "state certified" – Injunctive proceedings.

A. No person, other than a trainee, state licensed, state certified residential or state certified general real estate appraiser, shall assume or use that title or any title, designation, or abbreviation likely to create the impression of certification as a real estate appraiser by this state. A person who is not certified pursuant to the provisions of the Oklahoma Certified Real Estate Appraisers Act shall not describe or refer to any appraisal or other evaluation of real estate located in this state by using the term "state certified".

B. Violation of subsection A of this section, including using or attempting to use the seal, certificate, or license of another as their own, or falsely impersonating any duly licensed appraiser, or using or attempting to use an inactive, expired, suspended, or revoked license, is declared to be adverse to the public welfare, to constitute a public nuisance, and to cause irreparable harm to the public welfare. The Real Estate Appraiser Board, through the Attorney General, or the local district attorney may maintain an action for injunctive relief in the district court in the county in which a violation of this section is alleged to have occurred to enjoin any person from engaging in such practice.

C. Upon the filing of a verified petition in a district court, the court, if satisfied by affidavit or otherwise that a person has been engaged in the practice of real estate appraisal without a valid license, may enter a temporary restraining order without notice or bond enjoining the defendant from further practice. The showing of the absence of a valid, active, unexpired license, by affidavit or otherwise, is sufficient for the issuance of a temporary injunction. If it is established that the defendant has been or is engaged in violation of subsection A of this section, the court may enter an order or judgment perpetually enjoining the defendant from further unlawful acts. In all proceedings under this section, the court, in its discretion, may apportion the costs among the parties interested in the action, including the cost of filing the complaint, service of process, witness fees and expenses, court-reported charges, and reasonable attorney fees. These injunctive proceedings shall be in addition to, and not in lieu of, all penalties and other remedies provided in the Oklahoma Certified Real Estate Appraisers Act.

D. This act is hereby deemed to be voluntary on the part of those who apply to become trainee, state licensed, state certified residential or state certified general real estate appraisers. Users of appraisals may determine, by their own discretion or by guidelines, whether or not to use a trainee, state licensed, state certified residential or state certified general real estate appraiser.
